

Lagoon

Servomuto

MEDIUM - SMALL - LARGE

Lagoon, la nuova collezione di lampade outdoor disegnata da Servomuto. Lo stile elegante e ricercato, più affine ad un arredo domestico, trasferito all'esterno ne restituisce un uso quasi decontestualizzato.

La collezione trae ispirazione dal rigore e dalla semplicità della Typha, pianta tipica delle zone paludose che caratterizza gli argini di fiumi e laghi. Grazie alla sua forma elegante, negli anni 70 era un decoro molto tipico degli interni domestici. Come la pianta, anche la collezione Lagoon presenta tre altezze differenti - small, medium e large - con struttura in laccato nero opaco e dettagli in rame, che permettono alle lampade di vivere in gruppo creando una sorta di "foresta luminosa".

Oltre alla versione con base, è disponibile anche l'opzione a picchetto, direttamente piantata nel terreno, richiamando la forma della Typha e integrandosi meglio con l'ambiente esterno.

Come di consueto nei progetti di Servomuto, i paralumi dalla forma lineare ed essenziale sono rivestiti in tessuto Pierre Frey, disponibile in tre differenti finiture, Noumea Goyave, Bayamo Mimosa e Dominica Caraibes.

Lagoon, the new collection of outdoor lamps designed by Servomuto. The lamp's elegant and refined style, more familiar in a domestic setting, is here transferred to the outdoors, giving it an almost decontextualised use.

The collection is inspired by the vertical lines and simplicity of the Typha plant, typically found in marshy areas on the banks of rivers and lakes. Thanks to its graceful shape, in the 1970s it was a very characteristic decoration of domestic interiors. Like the plant, the Lagoon collection also has three different sizes – small, medium and large – with a matt-black lacquered structure and copper details, which allow the lamps to be grouped together, creating the impression of a "luminous forest". In addition to the version with base, a fence-mounted option is also available. Directly planted in the ground, this recalls the shape of the Typha plant and integrates better with the external environment.

As usual with Servomuto's projects, the lampshades have a linear and minimalist form, and are covered in Pierre Frey fabric. They are offered in three different finishes: Noumea Goyave, Bayamo Mimosa and Dominica Caraibes.
